The group is not only known for their albums, but also for the amazing atmosphere during their concerts, in which, make people shake the room as the music is being blared from the speakers.

"I'm off the hook at shows,"says front-man Coby Dick. "I've done stupid things where our lawyer was going, 'You can't be doing that!' but I've also hugged a million kids. How Nirvana was when they came out - that new edge of giving kids a release for their emotions - that's how I hope people connect with Papa Roach's music. I want to cause every emotion in people. I want them to fight, to f***; I want to bring out their violence, their sadness, their happiness." If you plan to go to the concert or have already been to a Papa Roach concert, then you are one of the lucky people in the world that have experienced a truly amazing show!
